

# 2012 – 2022: 10 years of the EUNIC Cluster Fund in numbers

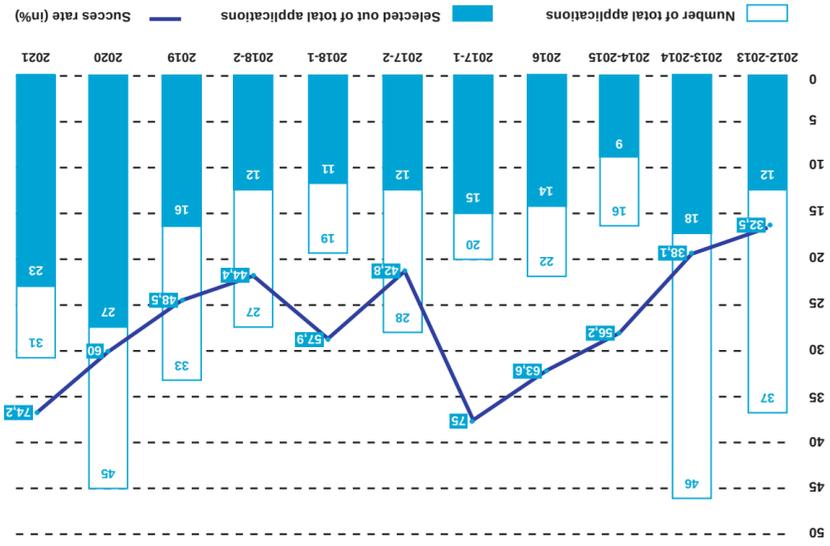

The Cluster Fund has seen a constant rise in financial contributions over the years, both by more EUNIC members and local partners. This has allowed it to transform from a modest supporting instrument to a fund with substantial impact.

## Budget

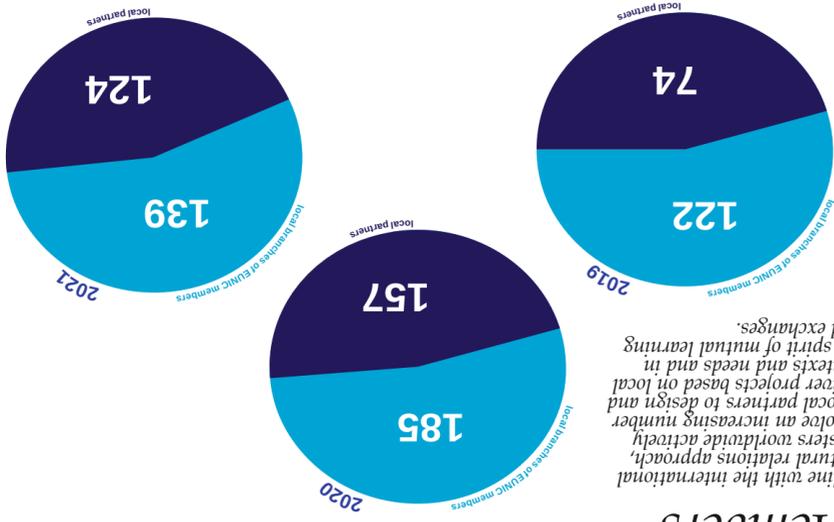

## Applications

There has been a great interest in applying for the Cluster Fund since its inception. While the competitiveness of the call has heightened with the years, the fund still allows for a good success rate of applications. Over the years the fund supported projects both inside and outside the EU.

## Members

In line with the international cultural relations approach, clusters worldwide actively involve an increasing number of local partners to design and deliver projects based on local contexts and needs and in the spirit of mutual learning and exchanges.

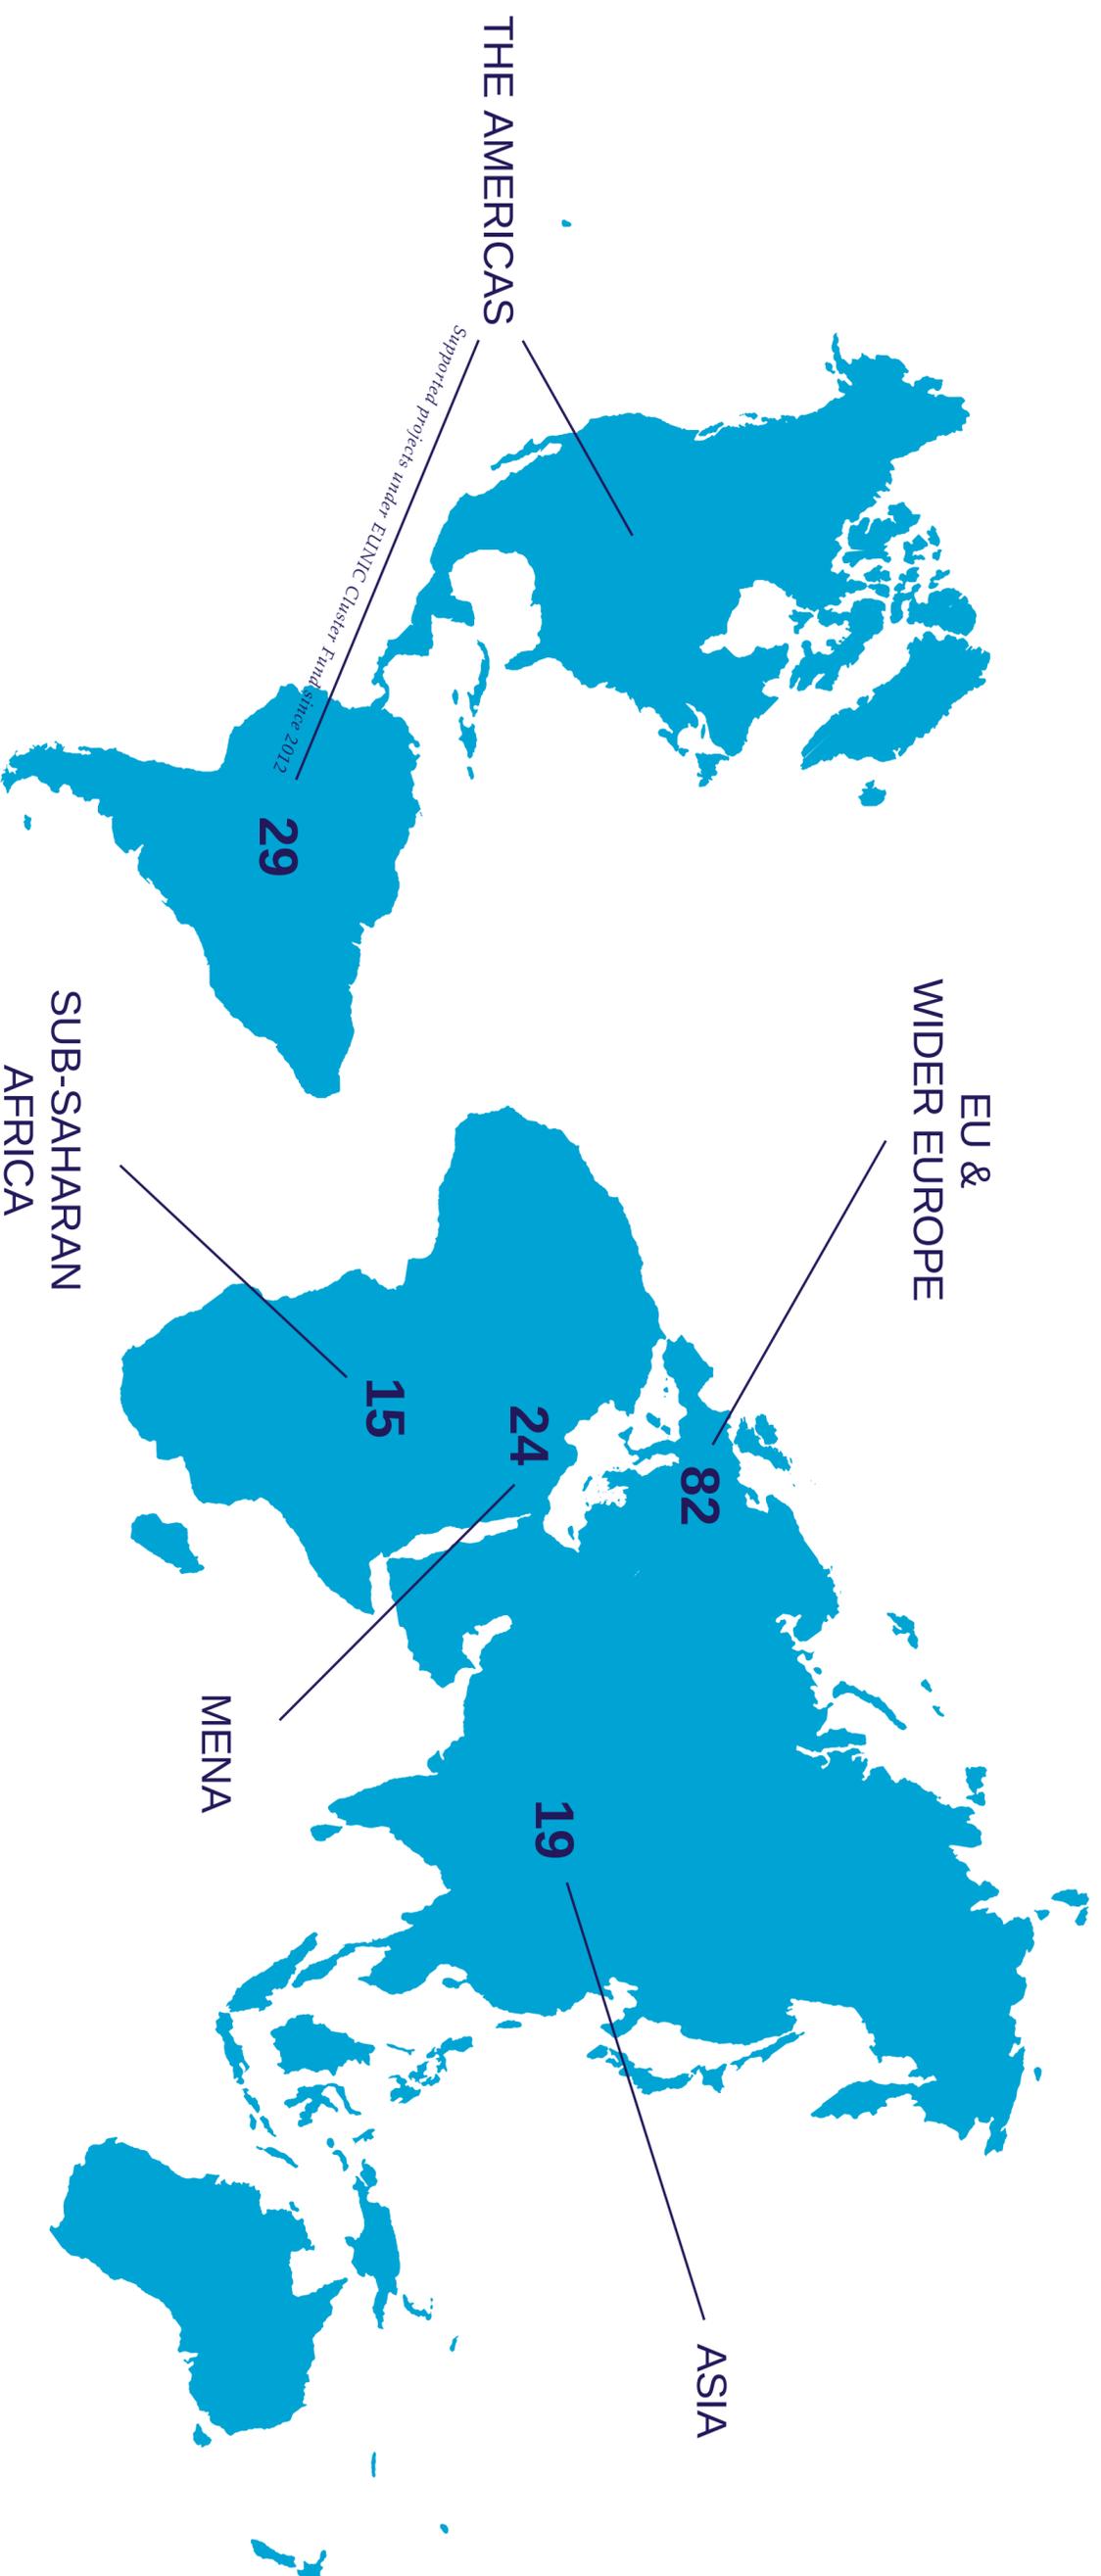

In total, **169** projects were supported since 2012 involving **84** out of the today **133** clusters\* implemented in **72** countries

**33** out of 38 EUNIC members involved in awarded projects over the years

EUNIC members

**38**

EUNIC members

**11**

*Calls for Proposals since 2012*

\*Several clusters have been awarded repeatedly or implemented Cluster Fund projects in collaboration with other clusters in one country/region
